

Top Nav -

Stays with user as they scroll down the page

Collaborators-

Single pane for each collaborator taking up the entire width of the page with fewer collaborators

	<p>What is your mission?</p> <p>Links</p>
--	---

Services -

When the user clicks on a specific service, it should open a modal with that information, video, or content.

Testimonials -

Under scrolling text testimonials, have three blocks for videos of specific clients (maybe modal so the user can see all the content for those three clients)

Contact us -

Wants background video behind the form
